

Is your company green enough? Would you like to improve your image or increase the clients' loyalty? Or maybe you are looking for a solution for a carbon footprint your activity produces? We can help you.

SMART FOREST

Our tree-tokenization platform is a solution towards carbon footprint neutralization and company image improvement by using tokenized trees as a fully liquid asset in a transparent register.

Product/Service

* **SMART FOREST provides a service "TREE TOKENIZATION"**, what can be useful for planters as well as organizations planting trees. All information about every tree in forest (1 tokenized tree has 1 own token/certificate) is recorded in a transparent register. Tokenization also ensure the trees liquidity on an every stage of their natural growth. Offer B2B/B2G only.

* **SMART TREE as a investing product** – is a real tree with certificate of ownership, brought into digital form (tokenized) with exact GPS localisation and insurance in case of a damage. Basing on a principle [1 tree = 1 token] we can more precisely count how much the carbon emission each tree consumes and how many carbon credits it generates, which will be reflected in a token price.

Trees with a very detailed specification (kind, age, localisation and etc.) will be presented in a visual way through the dashboard of mobile/web APP. Offer is for B2B,B2C,B2G.

* **SMART FOREST MARKETPLACE for smart trees and carbon credits as a tool** - is providing needed liquidity towards token-trees and carbon credits. Mobile/web APP. Offer for B2G,B2B,B2C sectors.

Examples of our ecosystem daily use:

- Neutralization of Carbon Footprint (by the company and privates)
- Green ratings (we provide a transparent register how many trees the company owns and how much oxygen they produce)
- Gift for a client (with every deal you made you can plant trees and pass them)
- Special events (you can plant very special kind of trees on special occasions – in a memory of WW2 victims and etc.)
- Global actions (green belts and etc.)
- VIP: offers like logotype out of trees (everlasting visual symbol of your company seen from the air)
